

Sound barrier details

Sanfield Industries Ltd.

Sound composition

A Metal Sound Barrier Panel

B Transparent Sound Barrier Panel

C H Steel Post

Note: Sound Barriers can be made of all metal panels

A--Metal Sound Barrier Panel

Material: Glavanized Sheet/Aluminum Sheet

Thickness:0.6mm-1.5mm

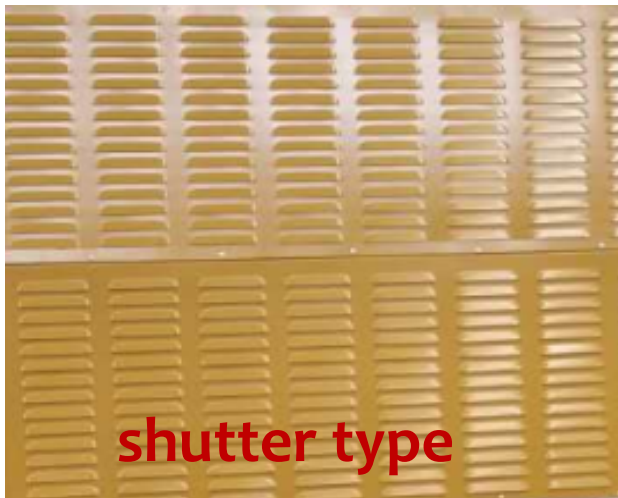

Type: Shutter type/Micropores type

Panel Width: 500-1000mm

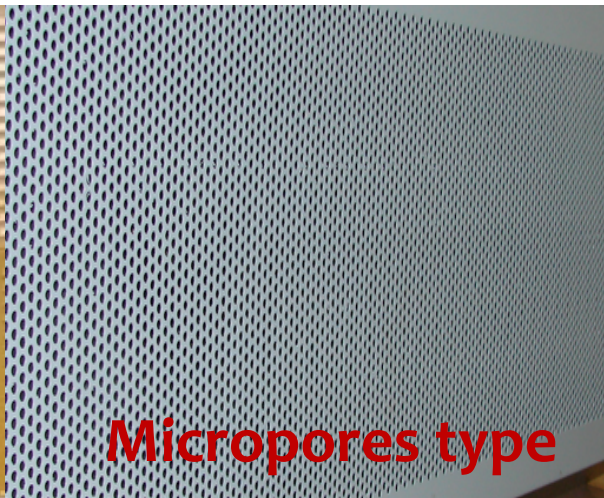

Panel Length: 1000-4000mm

Panel thickness: 80mm/100mm/120mm

Infill Acoustic Material: Glass Wool

shutter type

Micropores type

Glass Wool

B--Transparent Sound barrier Panel

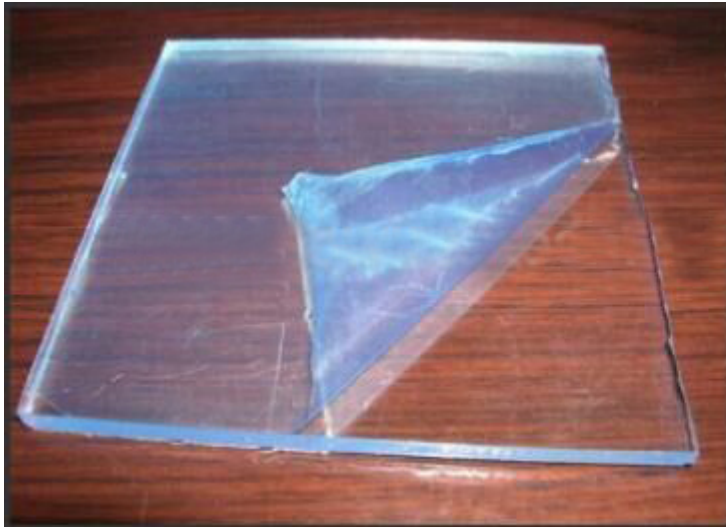

Material: PC sheet/ PMMA Sheet

Thickness: 6mm-12mm

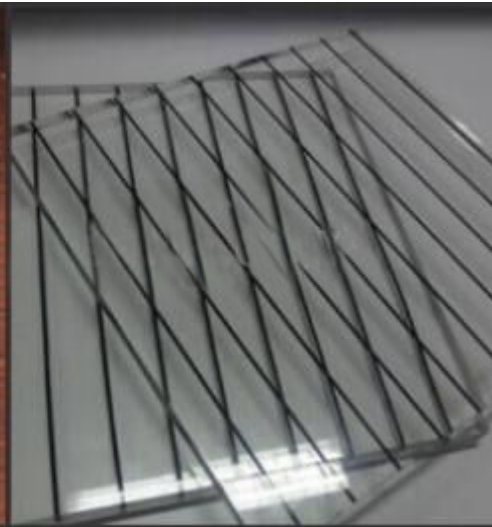

With Aluminum Alloy Frame

Width: 500-1000mm

Length:1000-4000mm

PC Sheet

PMMA Sheet

With Aluminum Alloy Frame

C-H Steel Post

Material: Low Carbon Steel Q235

Size: 100*100/125*125/150*150

Height: Base on the project, maximum with 10m

Finish: hot dip galvanized or powder coated

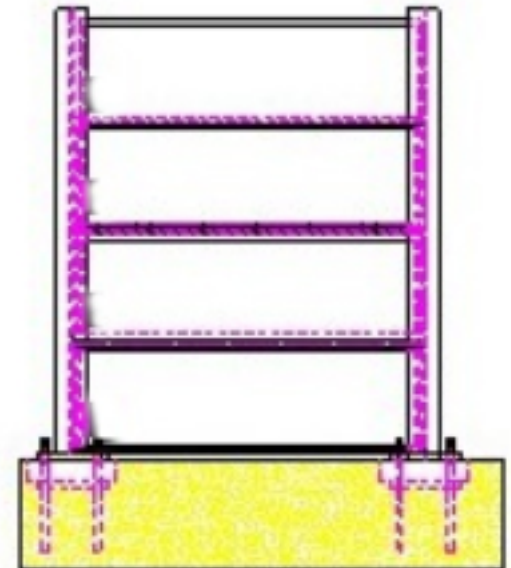

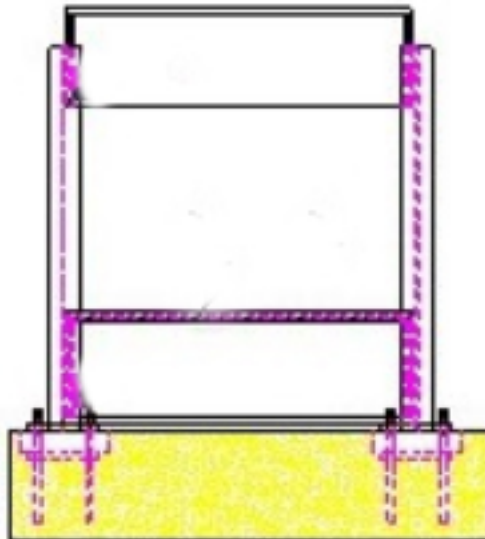

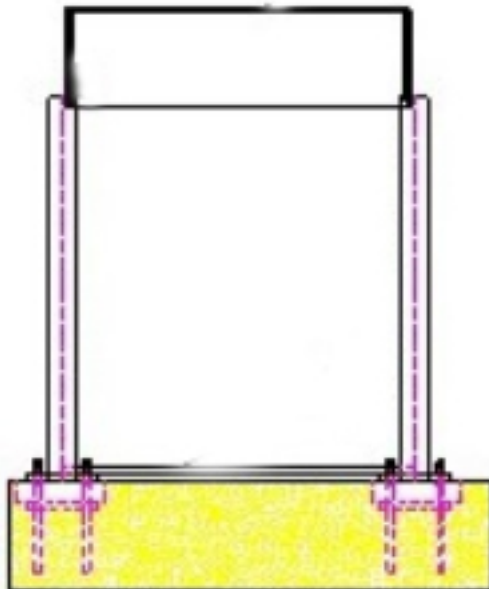

Hot Dip Galvanized

Powder Coated
